5. Fire fighting measures

Extinguishing media:	Carbon Dioxide, Dry Chemicals, Foam
Special firefighting procedures:	A self-contained breathing apparatus is required.
Unusual fire or explosion hazards:	Uncontrolled polymerization may occur at high temperatures resulting in explosions or rupture of storage containers.
Hazardous combustion products:	Avoid breathing dust / fume / gas / mist / vapors / spray.

6. Accidental release measures

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Unusual fire or explosion hazards:	Do not allow spills to enter drains or waterways. Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
Hazardous combustion products:	DO NOT use cloth materials. In case of a leak or spill, flood area with water to polymerize the material. Soak up with inert absorbent. Ventilate area. Prevent product from entering drains.

7. Handling and storage

Handling:	Avoid contact with skin and eyes. Avoid breathing vapors. Handle containers carefully to prevent damage and spillage. Refer to Section 8.
Hazardous combustion products:	Store in a cool dry area, away from heat, sparks, and open flame. Keep containers sealed when not in use. Store out of direct sunlight.
